# Dutch Design

## Made in Holland

### We Create

We make a difference throughout our continuous innovation. By developing new standards for outdoor and indoor experiences we challenge ourselves to create distinctive products that satisfies all the needs of every single customer. We strive for long lasting relationships by making sustainable products and expanding our worldwide network.

### We Design

Our passion for design, modern technologies and high quality materials as well as our talent for coming up with creative, innovative solutions are the foundation of our company. Every maker at Creative is essential in the process of making outstanding products. All individuals add value with their personal knowledge and skilled craftsmanship. For designing and engineering we use Catia V5, the high end 3D software that is considered standard in the aerospace and automotive sector. We offer creative rendering thanks to the Modo software.

### We Produce

Every Creative product has it's own contemporary design, quick-and-easy installation, limited logistic volume and certified quality. We deliver Creative Structures, Elements and Decking to cover your entire event space, outdoor and indoor. Besides delivering high quality products, you can count on our customer support to complete your desired brand experience.

### We Distribute

We deliver Creative solutions to cover your event, offer a wide visibility to your brand, host your visitors, accommodate your guests or simply offer protection to any kind of weather. Besides delivering high quality products, you can count on our support, to complete your desired Creative experience all over the world. You can find our products in six continents, in over 60 countries.
